FORT WORTH, Texas, April 28, 2026 (GLOBE NEWSWIRE) -- Sports Entertainment Gaming Global Corporation (NASDAQ: SEGG, LTRYW) (the "Company" or "SEGG Media") today announced that it entered into a strategic technology partnership and integration agreement with Polymarket to exclusively power Sports.com Predict, the Company's prediction market platform on Sports.com.

The partnership with Polymarket follows SEGG Media's recent announcement of its plans to launch Sports.com Predict ahead of the 2026 FIFA World Cup and confirms that Polymarket's infrastructure will underpin the platform's deployment and long-term scalability.

Through the integration, Sports.com Predict will leverage Polymarket's established prediction market technology stack, enabling users to participate in real-time sports outcome markets directly within the Sports.com ecosystem. The integration is designed to support the rapid scale-up of Sports.com Predict, converting wide-ranging fan engagement into repeat, transaction-driven activity.

By incorporating Polymarket's technology, Sports.com Predict gains access to proven, institutional-grade technology capable of supporting high transaction volumes. It also provides SEGG Media with the technological foundation to expand Sports.com Predict across all major sports and international markets.

Marc Bircham, Chairman of SEGG Media, said: *"Polymarket has played a defining role in building and scaling prediction markets globally, and its technology is proven to support high-volume, real-time transactions. Polymarket is the ideal partner for Sports.com Predict, giving us the foundation to scale quickly ahead of the 2026 FIFA World Cup and to drive repeat, transaction-driven fan engagement around the world's biggest sporting event."*

Under the partnership, SEGG Media and Polymarket will participate in a transaction-based revenue share on trades executed via Sports.com Predict, creating a high-margin growth engine within the Company's broader digital sports, entertainment, and gaming ecosystem.

As previously announced, Sports.com Predict is being rolled out in phases, subject to regulatory considerations and development progress.
